

Akshay Kumar Bolusani

Software Engineer | Cyber Security | Full Stack Developer

Hyderabad, Telangana, India | +91 7396991624 | akshaykumarbolusani@gmail.com

LinkedIn | GitHub | Portfolio | ProjectKaro

Professional Summary

Computer Science graduate with hands-on experience building and defending enterprise systems, including a self-deployed Security Operations Center using Wazuh SIEM, Elastic Stack and Suricata IDS, and an explainable AI-based phishing detection system. Founder of ProjectKaro, leading a team of 8 in delivering 60+ full-stack and AI-driven projects with direct client communication and project management. Proficient in Python, SQL, Docker, Linux administration and the MITRE ATT&CK framework. Seeking Graduate Software Engineering, Cyber Security or Cloud Engineering opportunities.

Technical Skills

Programming & Tools: Python, Java, JavaScript, SQL, Docker, Git, AWS, Linux

Cyber Security: Wazuh SIEM, Elastic Stack, Suricata IDS, MITRE ATT&CK, Kali Linux, Ubuntu Server, Windows Security Monitoring

AI/ML & Web: TensorFlow, PyTorch, Scikit-Learn, NLP, React.js, Node.js, FastAPI, REST APIs, MySQL, PostgreSQL, MongoDB

Data Analytics: Power BI, DAX, Power Query, Microsoft Excel

Cyber Security Projects

Enterprise Security Operations Centre (SOC) Lab – Wazuh, Elastic Stack, Suricata GitHub

- Designed, deployed and documented a full enterprise SOC lab with centralised log collection, endpoint monitoring and MITRE ATT&CK-mapped threat detection across Ubuntu Server, Kali Linux and Windows.
- Simulated brute-force attacks and malware incidents to perform real-time monitoring, alerting and incident analysis with custom dashboards.

PhishGuard AI – Explainable Hybrid Phishing Detection GitHub

- Built an explainable AI system analysing URLs, email content and website characteristics to detect phishing with transparent, interpretable predictions.
- Designed an interactive web interface for real-time phishing analysis and decision support.

Other Projects

SkinCare AI: AI-powered skin disease detection platform using DINOv2 and ResNet50, served via scalable FastAPI REST APIs with confidence scoring.

Power BI Cost & Budget Dashboard: Interactive executive dashboard connected to MySQL with DAX measures, KPIs and drill-through reports for budget variance and executive reporting.

Education

Malla Reddy University – B.Tech. Computer Science and Engineering 2022 – 2026

CGPA: 8.97 / 10

Professional Experience

Founder and Software Engineer | ProjectKaro Dec 2025 – Present

- Founded and led ProjectKaro, delivering more than 60 software projects across web development, AI and startup MVPs.
- Leading a multidisciplinary team of eight developers, managing client communication, project planning, architecture, deployment and support.

Web Development Intern | Digital Connect Aug 2023 – Jan 2026

- Developed and maintained 100+ responsive websites across healthcare, education, real estate and business domains.
- Collaborated directly with clients to gather requirements, deliver solutions and provide post-deployment support.

Leadership & Achievements

- Vice President, Dept. of CSE (2024–2025)** – Elected Vice President of the Department of Computer Science Engineering, representing more than 700 students and organising technical events, hackathons and workshops.
- Class Representative (2022–2023)** – Represented 90+ students as the communication bridge with faculty.
- Presented research paper *Soil Contamination Detection Using Hybrid Machine Learning Models* at PiCET 2026 (Scopus-indexed IET Conference Proceedings, Parul University).

Additional Information

Languages: English, Telugu, Hindi
